

It is sad enough that this election is so dirty. Why a media conglomerate would be permitted to air lies and innuendo as news, to attempt to influence an election, in which they are obviously biased, is a disgrace.

Media conglomeration is a backdoor way to subvert the First Amendment. Sinclair Broadcasting has proven this by refusing to air the fallen soldiers in the Iraq conflict. They are further abusing their position by attempting to influence an election.

This should be stopped, immediately.

Sincerely,

Crystal Curry
